## KILLS HIMSELF IN PRISON

Assassin of Von Plevhe Takes Morphine When Jail Breaking Plot Is Discovered.

St. Petersburg, Dec. 14.—The report that M. Sasonoff, who, July 28, 1904, assassinated Minister of the Interior Von Plevhe, had died in the prison of Zaratul was officially confirmed. The death is attributed to suicide.

Recently rumors that Sasonoff had been fatally injured by a flogging were in circulation. According to the governor of the prison, the officers discovered a plot to release the political prisoners en masse. The authorities ordered the corporal punishment of two convicts.

As a protest against these measures the convicts severed the arteries in their wrists, and three others, including Sasonoff, took fatal doses of morphine.

## DR. WILEY IS TO MARRY

Government Expert Will Desert Cafes and Enjoy Miss Kelton's Cooking Alone.

Washington, Dec. 14.—Dr. Harvey Washington Wiley, pure food expert, is going to be married.

For 66 years Dr. Wiley has made honest and indefatigable efforts to obtain a square meal of absolutely pure food, properly divested of germs and microbes, and served to suit the palate of a savant, fearfully armed with the knowledge of the deviously overtaking ways of bacteria and antimacule.

Now, deserting the cafes and restaurants of his bachelor days, Dr. Wiley is about to set up an establishment of his own.

The woman who is not afraid to tackle the stupendous task of catering to the erudite and earnest chief of the United States bureau of chemistry is Miss Anna C. Kelton, daughter of the late General Kelton, U. S. A., and in her own right a woman of mentality and poise.
